Audience:
- Port workers; Port cities authorities; People from the clustered projects; Knowledge centers & policy makers
Docks the Future Training Package

Transferability Analysis (TA) Tool
In this course we will address the Transferability Analysis (TA) and Port of the Future (PoF) TA Methodology. The objective is to get familiar with the know-how of the concept and vision of Port of the Future 2030 and how to transfer projects to other EU ports and in EU neighbouring countries.

Project Common Index (PCI) Tool
The PCI course will make familiar with the DockstheFuture objectives and KPIs, help you identify and formulate your own strategic objectives and finally help you evaluate your own projects, project ideas with the PCI Tool in the PCI Excel Tool video series. Instructors: Sönke Maatsch & Thorsten Friedrich, ISL

Decision Support System (DSS) Tool
This course has the objective to transferring knowledge in DSS (Decision Support System). The tool aim facilitating every decision looking at strategic objectives of future European ports’ goals, becoming the liaison between DSS and the 2030 Vision of European ports. Instructors: Alessio Tel & Nicola Sacco, University of Genoa
In this course we will address the Transferability Analysis (TA) and Port of the Future (PoF) TA Methodology. The objective is to get familiar with the know-how of the concept and vision of Port of the Future 1030 and how to transfer projects to other EU ports and in EU neighbouring countries.

Instructor: Joris Casteels, PortExpertise

Course Content

- Introduction
  - 1 Topic

- Objectives and KPIs
  - 2 Topics

- Methodology
  - 2 Topics

- Tool Demonstration
  - 3 Topics

- Post-Evaluation Training Survey
“The *training package* is going to be a *service* provided by the *Network of Excellence (NoE)* that will represent the most effective environment for exploiting the project outcome in the long terms where the Ports adhering to the NoE have a direct link to the package knowledge for *mastering* their *expertise*”
Manuela Flachi
